

EVALUATION OF ONE-STOP CAREER CENTERS' ACCESSIBILITY TO PERSONS

WITH DISABILITIES – TECHNICAL ADVISORY GROUP

IMPAQ International, LLC

April 2013 – April 2014

Project Summary: As a member of the Technical Working Group for the project, the Mr. Trutko is providing expert review of and feedback on project methodologies and reports/deliverables. This included a recent one-day meeting to review the evaluation design report, which included the approach and tools for conducting an Web-based survey of all one-stops and site visits to American Job Centers to examine accessibility of comprehensive and satellite centers for individuals with disabilities. A second TWG meeting will take place towards the end of the project period and is expected to focus on the study's findings and project's final report.
